

Do you leave voicemail on others' phones? Are there particular people you feel comfortable sending voicemail?: No, yes - my parents because I know they check them

After calling an unanswered phone, what determines whether you leave a voicemail?: Knowing whether or not that person texts or will check their voicemail

When compared to other forms of communication (letters, text, email, etc), does voicemail strike you as antiquated? Why/why not?: it's headed in that direction, no one likes to talk on the phone any more

Do you have any particular association with receiving voicemail?: my parents are usually the only ones that leave them

Are there ever circumstances where you would prefer voicemail?: no

Have you ever received a meaningful voicemail? And if so, what made it meaningful?: I wouldn't 100% call it meaningful, but it was one that I held on to for a bit. It was a boyfriend leaving a really sweet message, apologizing for being a butt
